ARVEN

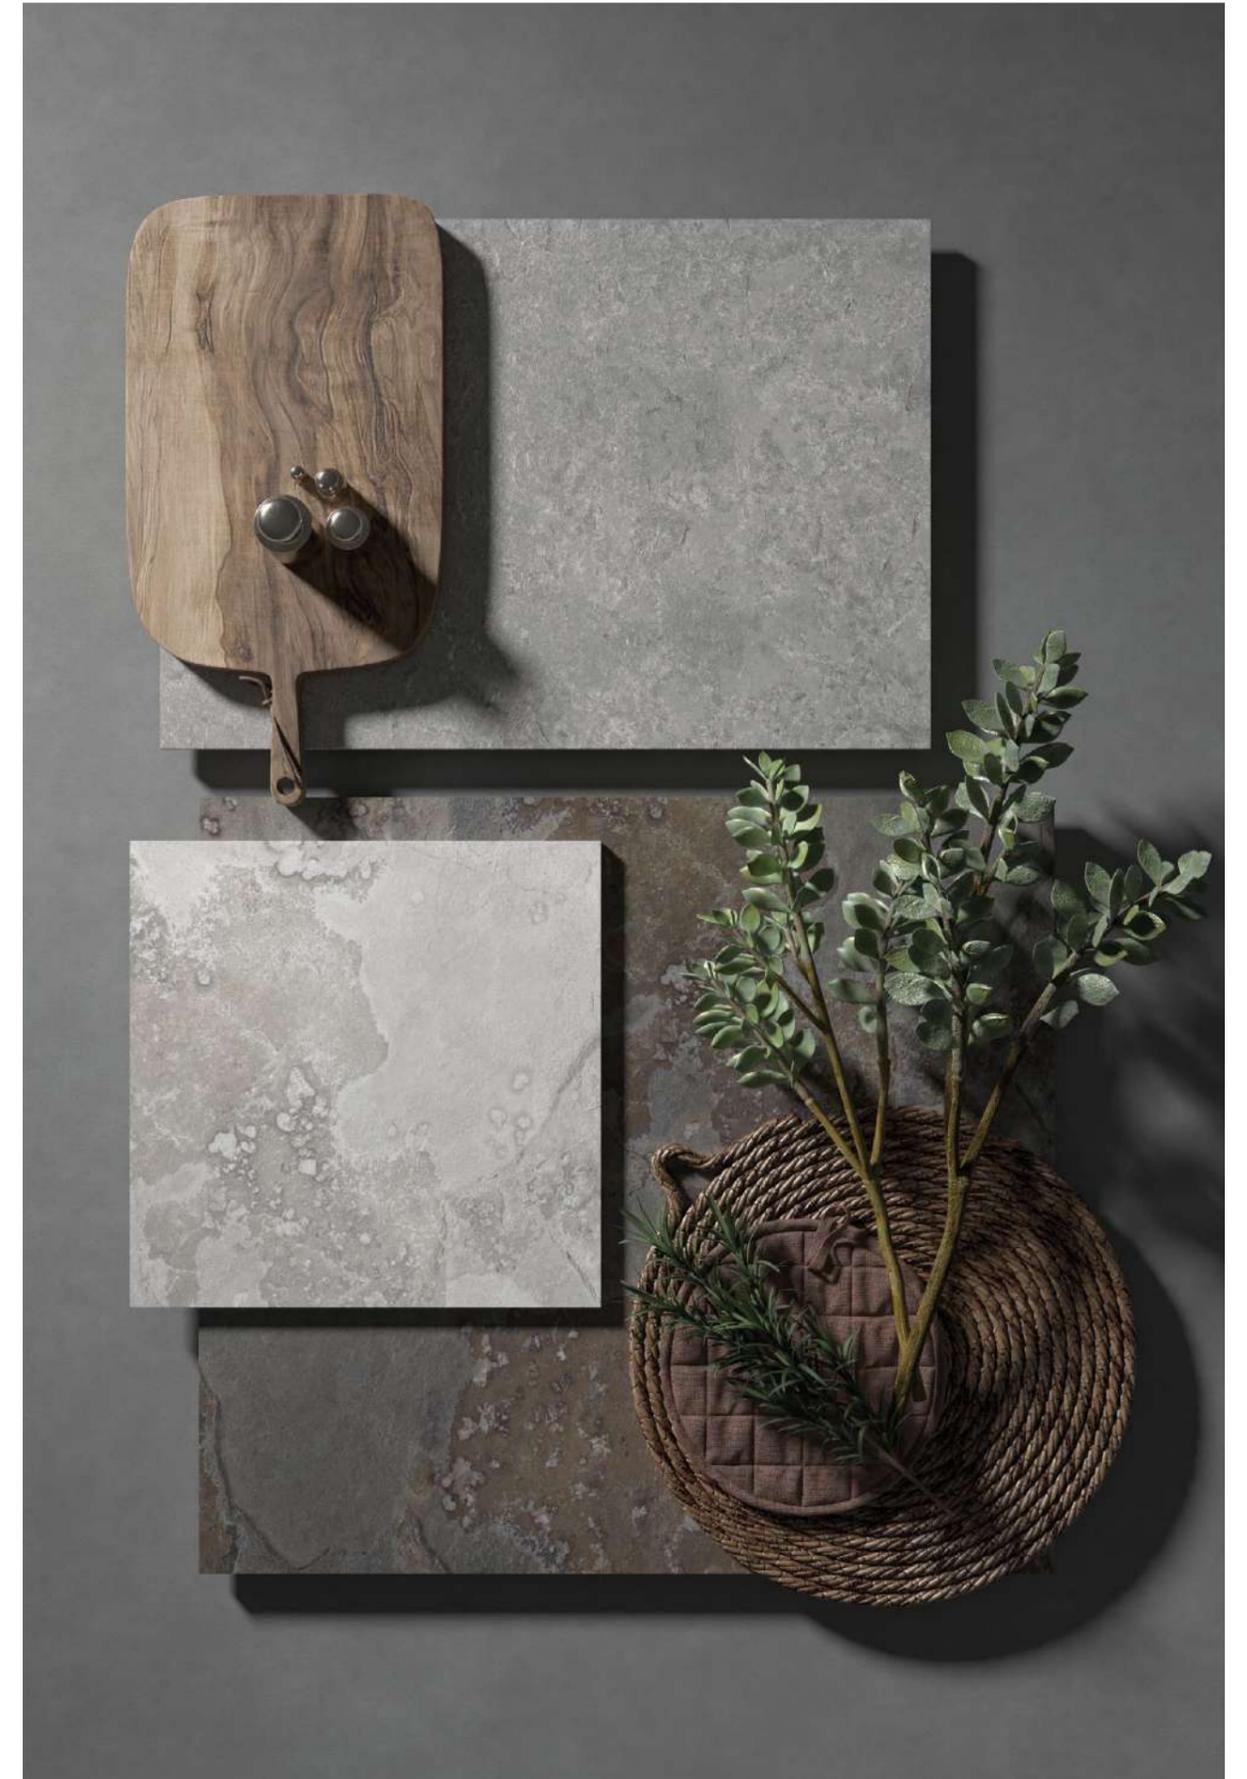

Arven leaves no one indifferent. This series of porcelain stoneware is inspired by the most expressive design of natural stone to give shape to contemporary spaces. Not surprisingly, its characteristic texture adapts to styles as diverse as Mediterranean and industrial. This chameleon-like personality is reinforced by its three colours that bring serenity in its light shades or drama in its Dark version.

Arven no deja indiferente. Esta serie de gres porcelánico se inspira en el diseño más expresivo de la piedra natural para dar forma a espacios actuales. No en vano, su característica textura se adapta a estilos tan diversos como el mediterráneo y el industrial. Esta personalidad camaleónica se ve reforzada por sus tres colores que aportan serenidad en sus tonos claros o dramatismo en su versión Dark.

BYRON

Byron takes the bet on the most natural design one step further. In addition, it adds a touch of naturalness thanks to the honed matte finish. The result is elegant surfaces with a silky look and feel. In addition, in its wall tile version it adds the strip relief, which is establishing itself as one of the major decorative trends.

Byron redobla la apuesta por el diseño más natural. Además, añade un toque de naturalidad gracias al acabado mate apomazado. El resultado, superficies elegantes de aspecto y tacto sedoso. Además, en su versión de revestimiento añade el relieve alistonado, que se consolida como una de las grandes tendencias decorativas.

FIRENZE

ARTECH technology

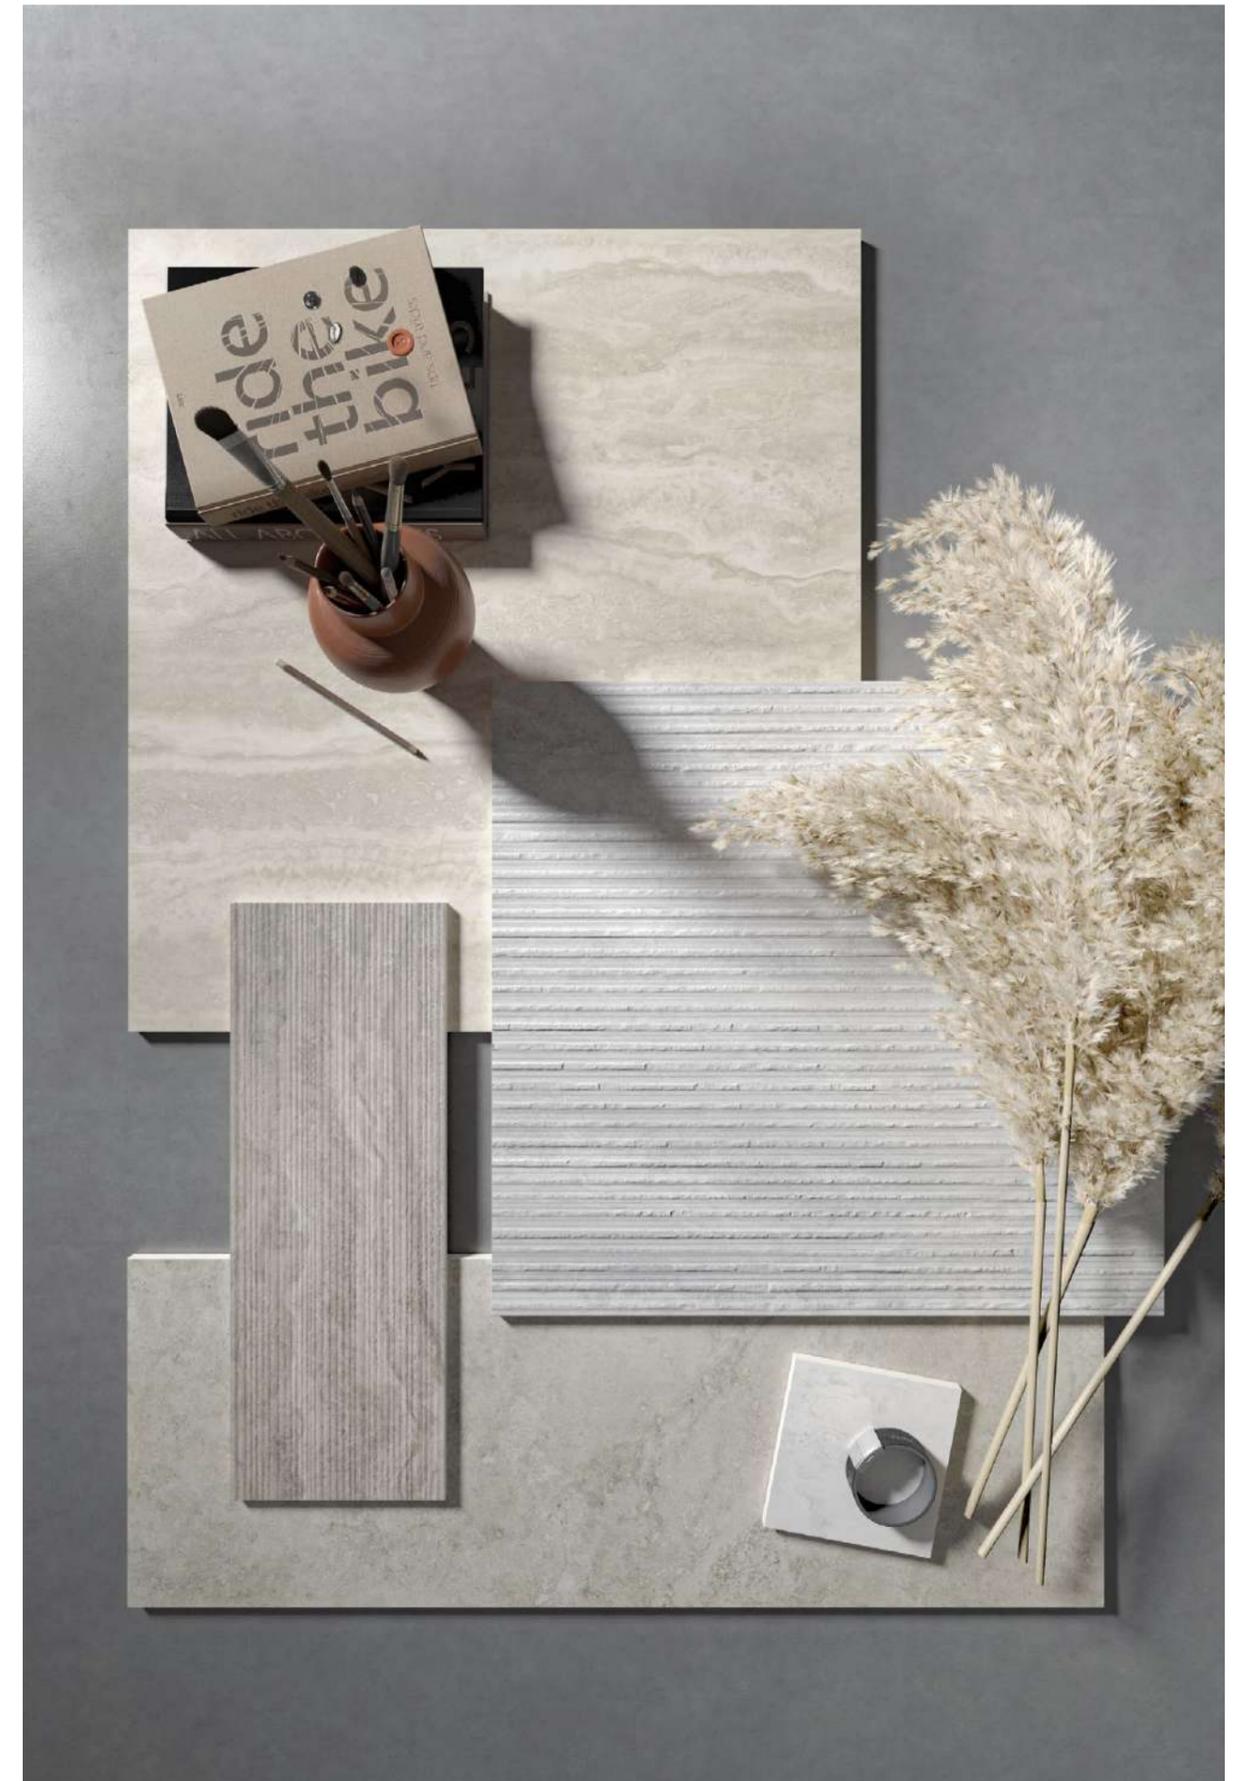

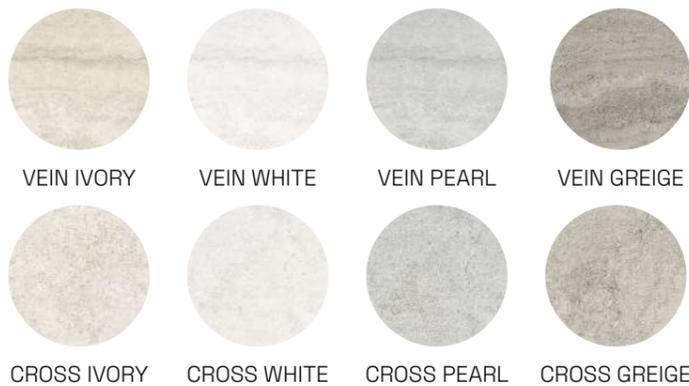

Firenze comes in two versions with their own personality. Firenze Vein reproduces the most identifying characteristics of Travertine, a natural stone similar to marble that has been used in construction since time immemorial. Firenze Cross, on the other hand, is based on the Cross Cut look, which reproduces the aesthetics obtained by cutting the stone according to its stratification.
