

## CONCRETE U CHANNEL FOR GLASS BALUSTRADE

A concrete U channel for glass balustrades provides a durable and simple way for securing glass panels in various applications such as balconies, stairs, and terraces.

## CONCRETE U CHANNEL

The concrete U channel features a U-shaped design that securely holds the glass panel in place.

The channel is made from reinforced concrete, ensuring high strength and durability.

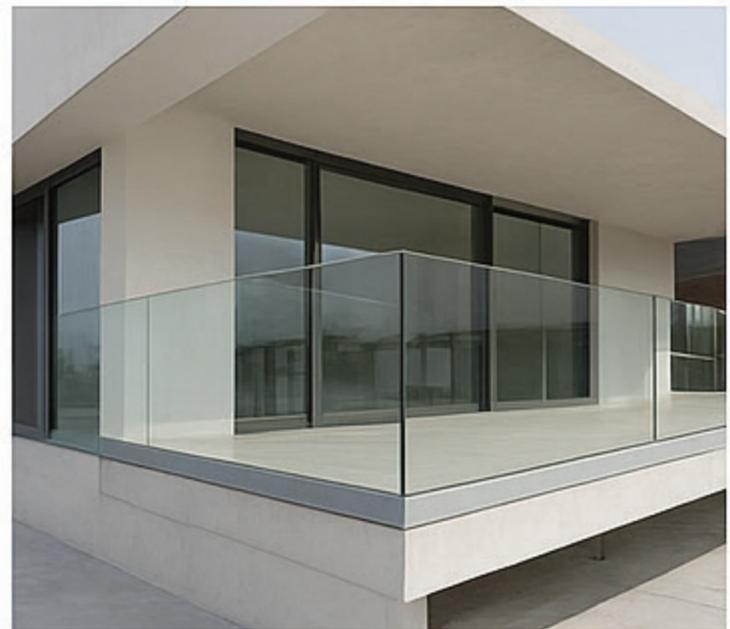

## GLASS PANEL

The glass panel, with a thickness of 19mm, provides a

## BENEFITS

- High strength and durability
