TAILORED DESIGN

XTONE has the ability to adapt to any size, use and space, making it an ideal material for all types of projects. There is no limitation for large format porcelain tile; a concept of use that goes beyond the traditional format and allows the execution of avant-garde ideas.

XTONE tiene la capacidad de adaptarse a cualquier medida, uso y espacio, por lo que se convierte en un material idóneo para todo tipo de proyectos. La limitación no existe para el porcelánico de gran formato; un concepto de uso que va más allá del formato tradicional y permite ejecutar ideas vanguardistas.

XTONE a la capacité de s'adapter à n'importe quelle taille, utilisation et espace, ce qui en fait un matériau idéal pour tous types de projets. Il n'y a pas de limite pour le grès cérame de grand format ; un concept d'utilisation qui va au-delà du format traditionnel et permet l'exécution d'idées avant-gardistes.

THE TEXTURE
REVOLUTION
comet | core | eclipse | lumen | orion | titan

XTONE porcelain slabs push the boundaries of design, transforming innovative ideas into reality with advanced finished product solutions—driving an endless Revolution

XTONE lleva los límites del diseño de sus placas más allá, transformando ideas innovadoras en realidad con soluciones avanzadas de producto acabado, impulsando una Revolución sin fin.

Les dalles en porcelaine XTONE repoussent les limites du design, transformant des idées innovantes en réalité grâce à des solutions avancées de produits finis, propulsant une Révolution sans fin..

CORE[®]
FULL-BODY DESIGN

Pressing porcelain together with decorative flakes to achieve a full-body effect.

Prensado del porcelánico junto a escamas decorativas para conseguir un efecto todo masa.

Pressage de la porcelaine avec des éclats décoratifs pour obtenir un effet pleine masse.

COMET[®]
GEMS DECORATION

A radiant effect produced by shimmering particles of varying intensity, depending on the angle from which the surface is viewed.

Partículas brillantes de diferente intensidad según el ángulo en el que se observa la superficie.

Particules brillantes d'intensité variable selon l'angle d'observation de la surface.

[Return to the index](#)

ECLIPSE®

ELEVATED TEXTURE SURFACES

Decorative selection with different particles to achieve various volumetric effects.

Selección decorativa con diferentes partículas para conseguir diferentes efectos de volumen.

Sélection décorative avec différentes particules pour obtenir divers effets de volume.

LUMEN®

SELECTIVE TEXTURE EFFECT

Decorative reliefs in specifically chosen areas of the design.

Relieves decorativos en zonas seleccionadas del diseño.

Reliefs décoratifs sur des zones sélectionnées du design.

ORION®

NATURAL VEIN THROUGH

Continuity of the veining inside the piece, giving it structural integrity.

Continuidad del veteado en el interior de la pieza, dotando a ésta de integridad.

Continuité du veinage à l'intérieur de la pièce, lui conférant intégrité et cohérence.

TITAN®

METALLIC SURFACE

Surface design with metallic nuances.

Diseño superficial con matices metálicos.

Design de surface avec des nuances métalliques.

* The continuous pattern between pieces could have a 3 cm deviation at the most. This disposal might be requested as special order at an additional cost, by default it is supplied randomly. La continuidad gráfica entre piezas puede tener una desviación máxima de 3 cm. Esta disposición se suministra bajo pedido con un coste adicional, por defecto se suministra de forma aleatoria. La continuité graphique entre pièces peut avoir une déviation maximale de 3 cm. Cette disposition est fournie sur commande et implique un coût supplémentaire, par défaut, il est fourni de façon aléatoire.

CLEANING POST- INSTALLATION

MORE INFORMATION

After the ceramic sheets have been laid, they must be protected to prevent them from getting damaged until all onsite work has been completed.

Before proceeding to give the tiled surface a final clean, wait for a prudent length of time (approximately 24 to 48 hours) so that the grouting material can set properly. In the case of polished porcelain sheets, once they have been grouted, they should be cleaned with a damp sponge before the grout can harden.

In general, a neutral or alkaline detergent like Acid Net should be used to clean away cement or grout residues. If epoxy-based grouts are used, clean away any remains as soon as the joints have been grouted, using a sponge and plenty of clean water. Then clean the surface thoroughly with an alkaline detergent, following the instructions on the product label. To care for the tiled surface, use a neutral detergent. To clean and care for the tile joints, use products specifically designed for this purpose.

Tras la instalación del material cerámico es imprescindible la protección del mismo para impedir posibles daños hasta la finalización de la obra.

Antes de realizar la limpieza final de obra es necesario respetar un tiempo de espera prudencial de 24-48 horas aprox., con el fin de que tenga lugar el correcto fraguado del material de rejuntado. En materiales porcelánicos pulidos, una vez rejuntado el material debe limpiarse con una esponja húmeda antes que el material de rejuntado se haya endurecido.

Como norma general se recomiendan productos ácidos tipo Acid Net teniendo en cuenta que no entren en contacto con los metales, siempre diluidos, para la limpieza de restos de cemento, juntas cementosas... En

el caso de utilizar para el rejuntado productos epóxicos, eliminar los residuos inmediatamente después de las operaciones de colocación, utilizando una esponja y abundante agua limpia. Realizar a continuación una limpieza a fondo con la ayuda de detergentes alcalinos. En el mantenimiento del revestimiento utilizar detergentes neutros, y en la limpieza y mantenimiento de las juntas, utilizar productos especiales a tal fin.

Après l'installation du matériau céramique, il est indispensable de protéger le matériau pour empêcher d'éventuels dommages jusqu'à l'achèvement des travaux.

Avant de réaliser le nettoyage final du chantier, il est nécessaire de respecter un temps d'attente d'environ 24-48 heures, pour permettre la bonne prise du matériau de jointoiement. Pour les matériaux porcelainés polis, une fois le jointoiement réalisé on devra nettoyer le matériau à l'aide d'une éponge humide avant que le matériau de jointoiement ne durcisse.

En règle générale, nous recommandons des détergents neutres ou basiques comme par exemple Basic Gel pour le nettoyage des restes de ciment, mortier de jointoiement... En cas d'utilisation pour le jointoiement de produits époxy, éliminer les résidus immédiatement après les opérations de pose, en utilisant une éponge et de l'eau claire en abondance. Réaliser ensuite un nettoyage à fond à l'aide de détergents alcalins, en veillant à suivre les indications indiquées sur les étiquettes des produits utilisés. Pour l'entretien du carrelage céramique, il est conseillé d'utiliser des détergents neutres, et pour l'entretien des joints, utiliser des produits spécifiques à cette fin.

SUSTAINABLE DEVELOPMENT

XTONE is a firm committed to the environment and sustainable development through eco-sustainable production processes and the manufacture of more innovative products with the aim of minimizing environmental impact.

The XTONE production plant, inaugurated in 2023, promotes energy self-consumption and 100% recovery of resources. With a total of 4,475 solar panels, some of the sustainable measures carried out in these facilities are the recovery of 100% of the heat from the oven for drying processes, the reuse of 100% of the water through a treatment plant for industrial use and the recycling 100% of waste for reintroduction into the production system: REGAIN – full recovery system.

That is why behind each XTONE product, there is an environmental commitment through the creation of sustainable projects that contribute to a better future.

XTONE es una firma comprometida con el medio ambiente a través de procesos de producción ecosostenibles y la fabricación de productos más innovadores con el objetivo de minimizar el impacto ambiental.

La planta de producción de XTONE, inaugurada en 2023, impulsa el autoconsumo energético y la recuperación de recursos. Con un total de 4475 placas solares, en estas instalaciones se realiza la recuperación del 100% del calor del horno para los procesos de secado, la reutilización el 100% del agua mediante depuradora para su uso industrial y el reciclaje del 100% de las mermas: un sistema de recuperación completa de recursos – REGAIN.

Suponiendo un ahorro considerable en materias primas,

detrás de cada producto XTONE, hay un compromiso medioambiental a través de la creación de proyectos sostenibles que contribuyen a un mejor futuro.

XTONE est une entreprise engagée envers l'environnement à travers l'utilisation de processus de production écologiques et la fabrication de produits plus innovants avec l'objectif de réduire l'impact environnemental.

L'usine de production de XTONE, qui a été créée en 2023, favorise l'autoconsommation énergétique et la récupération des ressources. Avec un total de 4475 panneaux solaires, ces installations permettent la récupération de 100 % de la chaleur du four pour la rediriger jusqu'au processus de séchage, la réutilisation de 100 % de l'eau via une station d'épuration à usage industriel et le recyclage de 100 % des déchets : un système complet de récupération des ressources - REGAIN.

En supposant des économies très importantes de matières premières, derrière chaque produit XTONE, il y a un engagement environnemental à travers la création de projets durables qui contribuent à un avenir meilleur.

PORCELANOSA, S.A.U. reserves the right to modify and/or discontinue certain models displayed in this catalogue. The colours and finishes of tiles shown in the catalogue may differ slightly from the originals. The settings shown in this catalogue are design proposals for advertising purposes. In real situations in which the tiles are laid, the installation instructions published by PORCELANOSA should be followed.

It is agreed that weights, dimensions, capacities, prices, performances, colours and other data contained in catalogues, prospects, circulars, illustrations, price-lists or other illustrative seller's documents, shall all constitute an approximate guide only.

PORCELANOSA, S.A.U. se reserva el derecho de modificar y/o suprimir ciertos modelos expuestos en este catálogo sin previo aviso. Los colores y acabados de las piezas pueden presentar ligeras diferencias respecto a los originales. Los ambientes que se muestran en este catálogo son sugerencias decorativas de carácter publicitario debiéndose utilizar en la instalación real las instrucciones de colocación editadas por PORCELANOSA.

Los pesos, las dimensiones, las capacidades, los precios, los rendimientos, los colores y otros datos que figuren en los catálogos, prospectos, circulares, ilustraciones, listines de precios u otros documentos ilustrativos del vendedor, tienen carácter de indicaciones aproximativas.

PORCELANOSA, S.A.U. se réserve le droit de modifier et supprimer certains modèles exposés dans ce catalogue sans avertir préalablement. Les couleurs et finitions des pièces peuvent présenter légères différences par rapport aux originaux. Les ambiances montrées dans ce catalogue sont des suggestions décoratives de caractère publicitaire, devant utiliser les instructions de pose recommandées par PORCELANOSA pour son installation réelle.

Les poids, les dimensions, les capacités, les prix, les rendements, les couleurs et autres données contenues dans les catalogues, brochures, bulletins, des illustrations, liste de prix et d'autres documents illustratifs du vendeur, ont caractère d'indication approximative.
